

Tira Ora Adventure Holidays

Children with Disabilities and Special Needs Form

It is the desire of Tira Ora Adventure Holidays to include children with disabilities and special needs in our school holiday programmes. It is important to gather information about your child in order to cater to their needs. By completing this form, we can endeavor to achieve this goal.

Does your child have a diagnosed disability?

. What are the details of the disability?

. How does the disability affect your child?

. Do they have any medical conditions and what implications does this have for providing care? Do they have asthma, allergies, fits, seizures, etc?

. What can the programme do to minimise the chance of these occurring?

. What are the symptoms and what steps have to be taken to control these?

. Do they have any dietary restrictions?

. What is your child's health history, e.g. head injuries, operations, etc?)

. Are there any activities your child should avoid for medical reasons?

. Do they take any medication?

. Does your child have any problems with behaviour in associating with other children?

. Do they have a behaviour plan?

. Is there anything specific that upsets your child?

. What methods are used to calm them should they get overexcited or have problems with their behaviour?

. How will the child cope being with a large group of children?

. Do they tend to wander off?

. Do they require any specialised equipment?

. Do they require assistance with eating, washing and toileting? Have they been in a programme before?

. What activities do they like?

It is our policy to enrol children with disabilities and special needs on a trial basis after an assessment has been carried. This will give our staff an opportunity to see whether they can cater to your child's needs.

Thank you for taking the time to complete this form.

We will contact you once an assessment has been completed.
